**INNOVATIONS**

**The new standard in ergonomics.  
torque transmission and responsiveness!**

**>felo  
ERGONIC®**

There are numerous ergonomic handle designs:  
It is always the user's hand that has to adjust to the handle.  
ERGONIC is the only handle adjusting to the individual hand!

The impact-proof handle core is coated with elastic, scratch- and acid resistant elastomer, containing cells of highly flexible plastics.

The handle fits perfectly into the hand at all times.  
Hand and handle interlock, causing less strain and work fatigue, allowing higher maximum torque!  
Responsiveness of material results in enhanced sensitivity and perfect control of torque.
