

# AERODYNAMICS

Pitot Sensor

3 or 16 channels

## Aero pressure

- 16, 3 and single channel pressure modules
- Various pressure ranges available
- CAN and analogue output available
- Operating temperature -40 to 125°C

Barometric

Single or four channel

## Ambient air pressure

- 4 and single channel barometric pressure modules
- Pressure range 700 to 1500mBar
- Operating temperature -40 to 125°C

Humidity Sensor

## Ambient air humidity

- Humidity sensor
- Integral temperature sensor
- Measures humidity using capacitive sensing technology
- Operating temperature 0 to 115°C

Air temperature

Pt1000

## Ambient air temperature

- Pt1000 sensing element
- Exposed to air flow for quick response
- NTC and Pt100 also available
- Operating temperature -25 to 200°C

Further details of these and other products within our range are available on our website and in our printed catalogue. Design and manufacture is in-house, so cost-effective customised parts are readily available to suit your specific installation requirements. Our track support engineers and our customer support team will be happy to discuss application of these parts to meet your objectives and will be able to provide quotations on request.
