### Channel 011: Remote Control Matching

The following procedure is used to match remote controls, only one remote can be matched at once if you want to adapt more than one you have to repeat the whole procedure.

- Save a new value of 0 to initiate the process.
- Put the Key/Remote you want to match in the Driver Door Lock.
- Move the Key/Remote to the **Open** Position and hold it there.
- Press the **Close** button on the Remote and hold it for 3 Seconds.
- The car should now Lock and Unlock, which confirms the successful matching.
