Citroen C3 3G Aircross (2017 – 2024) fuse and relay

Citroen Comments: 0

Citroen C3 3rd generation and **Citroën C3 Aircross** were produced in 2017, 2018, 2019, 2020, 2021, 2022, 2023 and 2024. During this time, the models received an update. In this article you can find a description of the fuses and relays of the Citroen C3 Aircross with fuse box diagrams, their locations and photo examples of execution. Let's highlight the cigarette lighter fuse.

”

The purpose of the fuses in the blocks, as well as their number, may differ from those presented and depend on the year of manufacture, the level of electrical equipment and the region of delivery of your car.

Passenger compartment

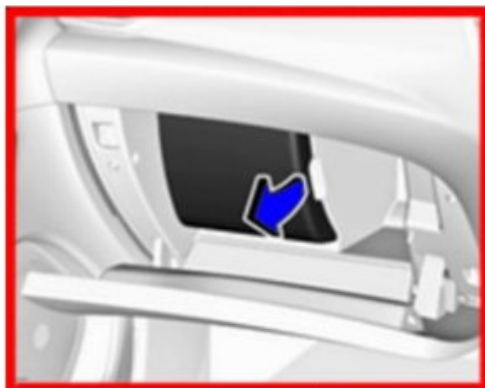

Main Fuse Box

The main fuse box is located on the left side at the bottom of the instrument panel.

To gain access, you must remove the protective cover. In right-hand drive vehicles, this unit is located in the glove compartment.

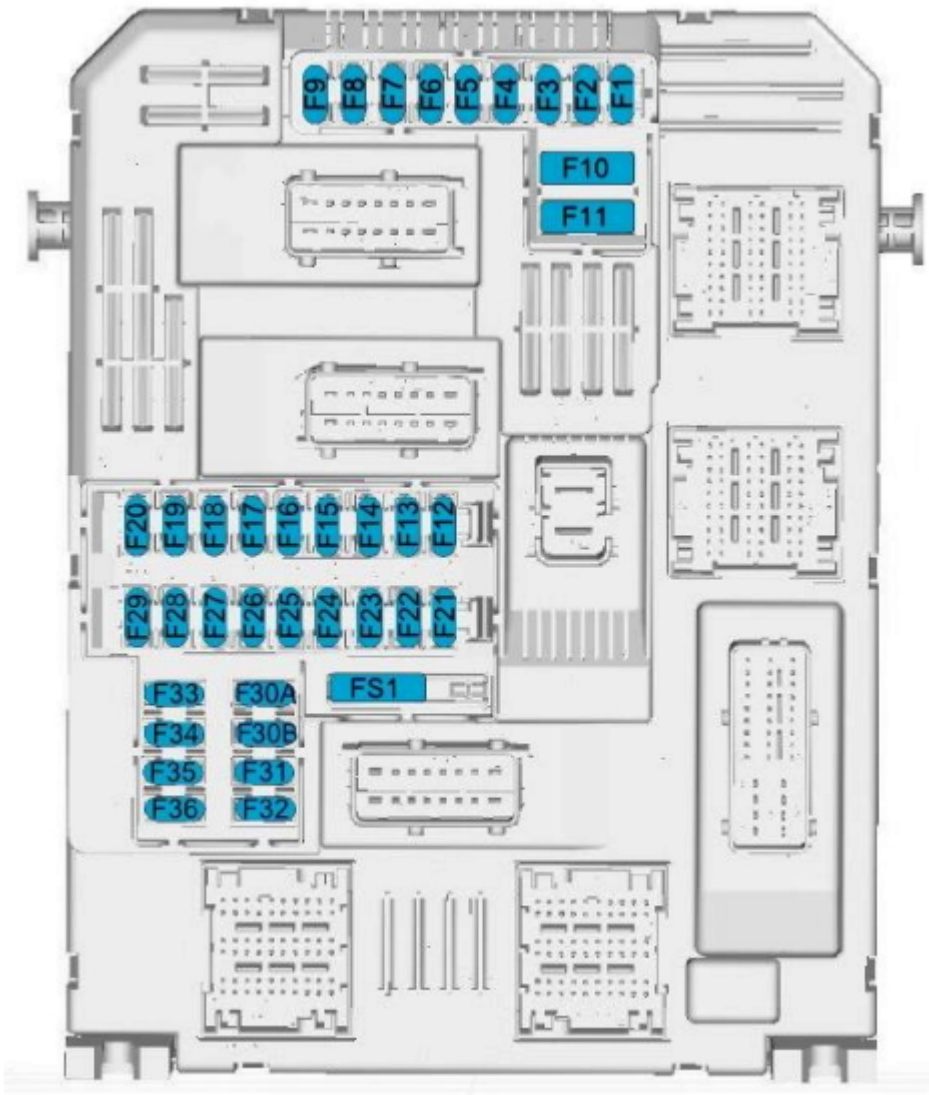

The fuse box itself will look something like this.

Assignment

1	Electrochrome rear view mirror, demisting rear screen, Diesel particle filter, parking sensors, power steering, LPG system, clutch pedal switch, door mirror adjustment
3	Trailer Position Control Module
4	Signal / Horn
5	Window washer (front/rear)
6	Window washer (front/rear)
7	Rear socket
8	Rear wiper
10	Door lock/rear door lock
11	Door lock/rear door lock

12	Stop-Start System / Diagnostic Connector Module / Brake System
13	Infotainment system / Rain and light sensor, air conditioning, front camera
14	Alarm, telematic unit
15	Climate control system
16	Automatic gearbox speed selector, brake pedal switch, Stop & Start system.
17	Instrument panel
18	Air conditioning, speed selector position indicator (automatic gearbox)
19	Steering Column Electrical System / Steering Wheel Controls
21	START/STOP switch or button, Anti-theft alarm
22	Camera / Rain sensor / Automatic lighting control
23	Seat belt reminder
24	Parking sensors, rear camera, telematic screen
25	Air bag
26	Electronic stability control
27	Anxiety
28	OnStar or BTA module
29	Infotainment system
31/32	Cigarette lighter / front socket
34	Heated rear window / Heated windshield / Inductive charging
35	Light switch/ diagnostic connector module
36	Lighting

”

Fuse number 32 is responsible for the operation of the cigarette lighter.

Additional Fuse Box

An additional fuse box can be installed next to the main unit
