## How to install the Label Printer Software?

To install the Software for the Seiko Label Printer, you need to have the following ready.

- $\checkmark$ Seiko Smart Label Printer
- $\checkmark$ Cable to Connect to the PC (USB / Serial Port)
- ✓ Power cord
- CD ROM containing the Software  $\checkmark$
- Start Windows
- > Insert the Smart Label CD-ROM in to the CD drive. The installation wizard starts automatically on most systems. Otherwise, open the CD-ROM folder and double click on Setup program.
- > Follow the instructions displayed on the screen. You could accept the default options provided by the Setup program in most of the screens and click on the "Next" button.
- > For you reference, the steps are explained in the following pages.
- > After few seconds, the following screen will appear. Click on "Next" button.

## Troubleshooting

If you could not install the Software as specified above, then please try the following solutions.

- Check the Power connection to the Printer
- Check whether the connection to the Printer to PC is ok
- Maybe the Software provided in the CD does not support your Windows Operating System. In this case, check the colortool support website for possible solutions (see link below).

## Link to the website

Via <u>www.dupontrefinish.be</u>, you can select the ColorFormulas/ColorPages/ColorToolSupport link.

Via this link, you will have access to the "Color Support" section, where you can find all necessary info concerning the ColorTools. (drivers, information, manuals, ...)
